Our Vision

EOS envisions a Memramcook-Tantramar Community that is safe, thriving and resilient in the face of climate change.

Our Mission

EOS works collaboratively with individuals, organizations and government to promote energy conservation, efficiency, renewable energy and adaptation to climate change.

EOS Specializes in Community-Based Solutions to Climate Change Issues Including...

- Energy efficiency
- Energy conservation
- Renewable energy
- Climate change adaptation
- Sustainable transportation
- Community planning
- Long-term water quality monitoring for the Chignecto area watersheds
- Waste reduction
- Education and outreach

Our Services

Climate Change Adaptation

- Community-based climate adaptation plans
- Design and plant rain gardens
- Bulk purchases of emergency kits, sump pumps, backwater valves, etc.

Energy Sustainability

- Emissions reduction and sustainable community action plans
- Bulk purchases of solar panels and efficiency items
- Draft-proofing work parties
- Direct installs of energy saving devices and retrofits
- Solar home tours

Watershed Monitoring

- Riparian zone assessments, water sampling, invasive species monitoring
- Watershed research, assessment and monitoring

Social Enterprises

- EOS-branded merchandise
- Consulting
- Research into climate change and community development issues

Outreach and Education

- Information booths at community events
- Innovative, hands-on education for youth at schools and summer camps
- Workshops and information sessions

Our Workshops

- Rain gardens
- DIY rain barrels
- Severe weather preparedness
- Solar energy
- How to save energy at home
- Plant identification
- Etc.

Our Committees

- Chignecto Watersheds
- Climate Change Week
- Chignecto Climate Change Collaborative

Fees and Rates

Many programs are free to residents of Memramcook-Tantramar. Members enjoy discounts on merchandise and workshops. EOS also offers competitive consulting rates, and discounted rates for non-profits and members. EOS can also help access government funding and other grants. Get in touch with EOS if you'd like a service or workshop.
