### **Policy Background**

EOS wants to respect the environment and reduce negative impacts wherever it can.

Environmental impacts should also be kept in mind when making purchases for projects and the office.

12.1 EOS staff shall endeavour to choose products and services with the least environmental impact. This may include buying local, purchasing recycled, organic, re-purposed/used, and items with as little packaging as possible first before other options.

12.2 Staff will also keep budgets in mind and spend within the scope of project budgets.
